# AMIT KUMAR

## MERN STACK DEVELOPER

Highly motivated and proactive Web Developer with a solid foundation in front-end and back-end technologies. Passionate about designing and developing scalable, user-friendly, and efficient web applications that enhance user engagement. Committed to continuous learning and problem-solving, with a keen interest in adopting new technologies. Seeking a web developer role where I can contribute my skills to innovative projects and support the organization's growth through impactful digital solutions.

## Projects

### Swiggy clone

**Technology :** React ,Tailwind CSS

- Developed a responsive food delivery web application inspired by Swiggy using React.js and Tailwind CSS.
- Implemented dynamic restaurant listings, menu pages, and cart functionality with seamless UI/UX.
- integrated state management using Redux Toolkit for efficient handling of user interactions.
- Optimized performance using lazy loading and code splitting for faster load times.
- Ensured a mobile-friendly and accessible design using Tailwind CSS utility classes.

### Chat APP

**Technology :** MERN

- Developed a real-time chat application using MongoDB, Express.js, React.js, and Node.js (MERN stack).
- Designed a responsive and modern UI with Tailwind CSS for an enhanced user experience.
- Implemented WebSockets (Socket.io) for real-time messaging and notifications.
- Integrated JWT authentication and bcrypt for secure user authentication.
- Designed a scalable backend with RESTful APIs to manage user chats and messages efficiently.
- Deployed the application on cloud platforms for accessibility and performance optimization.

### URL Shortner

**Technology :** MERN

- Developed a full-stack URL Shortener using MongoDB, Express.js, React.js, and Node.js.
- Designed a responsive and modern UI with Tailwind CSS for an enhanced user experience.
- Used JWT authentication to secure user-specific URL management.
- Integrated MongoDB for efficient storage and retrieval of shortened URLs.
- Followed RESTful API principles to ensure scalability and maintainability.
- Optimized backend performance with caching mechanisms for faster redirects.

## Certifications

### Master in MERN Stack Development

**Organization :** CEPTA Infotech Pvt. Ltd.

**Skills :** HTML, CSS, JS, React, Node.js, Express.js, MongoDB,  
Git & GitHub.
